Dittrich Named Director of Business Development and Marketing at Mueller Associates

Baltimore, MD—September 16, 2019

Mueller Associates has announced that Jason Dittrich has joined the Baltimore-based firm as director of business development and marketing. He will oversee strategic marketing initiatives, communications, and client outreach to support Mueller's award-winning mechanical, electrical, and plumbing (MEP) engineering services. The firm specializes in MEP engineering for cultural, civic, institutional, and education facilities, serving many museums, libraries, performing arts venues, and higher education institutions throughout the Mid-Atlantic and Northeast.

Dittrich brings 15 years of industry experience to Mueller, having worked with major design and construction firms in Maryland and Washington, D.C. A member of the Society for Marketing Professional Services (SMPS), he has been published in SMPS Marketer, and his contributions have led to seven national and local SMPS Marketing Communications Awards.

Dittrich holds a Master of Liberal Arts from Johns Hopkins University (2009) and a Bachelor of Arts from Stevenson University (2004). He is currently pursuing a Master of Business Administration from the Johns Hopkins University Carey School of Business.

"Jason is an accomplished marketing professional with an excellent track record in the A/E/C industry," says Robert Marino, PE, LEED AP, president of Mueller Associates. "He brings the energy and vision we need as we look to serve clients with expanded services and geographic reach in the region."

About Mueller Associates

Established in 1966, Mueller Associates delivers mechanical, electrical, plumbing, and fire protection engineering services for cultural facilities, museums, higher education institutions, libraries, performing and fine arts centers, historic preservation, government facilities, and other institutional and corporate facilities. Mueller specializes in engineering solutions for complex and stringent environmental control and energy conservation. The firm is a leader and innovator in sustainability and resilience.

Current and recent projects include the renovation of the historic Hirshhorn Museum and Sculpture Garden; the new Capital One Hall in Tysons, Virginia; George Mason University's new Fuse at Mason Square in Arlington, Va.; the Fernandez Family Center for Innovation and Collaborative Learning at Loyola University in Baltimore; the renovation of Carrington Hall at the University of North Carolina's Nursing School in Chapel Hill, N.C., and numerous projects for Northrop Grumman Corporation throughout the Baltimore-Washington University.
