Mueller Associates Promotes Davenport to Project Manager

Baltimore, MD—January 25, 2016

Mueller Associates, an award-winning mechanical, electrical, and plumbing engineering firm, has promoted Clark Davenport, PE, to project manager. A mechanical engineer with 12 years of experience, Davenport will manage the design of new construction and renovation projects in the institutional, corporate, and educational markets for the firm.

Davenport joined Mueller Associates in 2003 after graduating from Messiah College with a Bachelor of Science in Engineering. His recent projects include the LEED®-Platinum Angelos Law Center for the University of Baltimore, renovations to the Baltimore Museum of Art, and renovations to the Lauinger Library at Georgetown University.

Currently, Davenport is engineering the new Edward St. John Learning and Teaching Center at the University of Maryland in College Park, renovations to George Washington University's Corcoran School of the Arts & Design in Washington, D.C., renovations to the residence tower at Towson University, and upgrades to the police station and event building at the Smithsonian Institution's National Zoological Park. His clients also include Northrop Grumman, a Mueller Associates client for the past 40 years; and the Walters Art Museum.

Davenport is a licensed professional engineer and a member of ASHRAE.

About Mueller Associates

Established in 1966, Mueller Associates delivers mechanical, electrical, plumbing, and fire protection engineering services for cultural facilities, museums, higher education institutions, libraries, performing and fine arts centers, historic preservation, government facilities, and other institutional and corporate facilities. Mueller specializes in engineering solutions for complex and stringent environmental control and energy conservation. The firm is a leader and innovator in sustainability and resilience.

Current and recent projects include the renovation of the historic Hirshhorn Museum and Sculpture Garden; the new Capital One Hall in Tysons, Virginia; George Mason University's new Fuse at Mason Square in Arlington, Va.; the Fernandez Family Center for Innovation and Collaborative Learning at Loyola University in Baltimore; the renovation of Carrington Hall at the University of North Carolina's Nursing School in Chapel Hill, N.C, and numerous projects for Northrop Grumman Corporation throughout the Baltimore-Washington University.
