Steve Gillis, PE, Promoted to Vice President of Mueller Associates

Mechanical Engineer Has Managed Major Museum, Campus Design Projects

Baltimore, MD—July 2015

Mueller Associates, an award-winning mechanical, electrical, and plumbing engineering firm, has announced that Steve A. Gillis, PE, has been named a vice president of the firm. Gillis has been with Mueller Associates since 1988 and has managed many of the firm's major museum, higher education, and corporate design projects.

Gillis is a professional engineer and project manager who has overseen numerous projects at Georgetown University as well as the University of Maryland campuses in Baltimore and College Park. His clients also include the Wake Forest Baptist Medical Center and Northrop Grumman. He has managed extensive renovations for the Baltimore Museum of Art, and has specialized expertise in historic preservation and complex campus utility projects.

Gillis holds a B.S. in mechanical engineering from the University of Maryland, Baltimore County. He is a member of ASHRAE.

About Mueller Associates

Established in 1966, Mueller Associates delivers mechanical, electrical, plumbing, and fire protection engineering services for cultural facilities, museums, higher education institutions, libraries, performing and fine arts centers, historic preservation, government facilities, and other institutional and corporate facilities. Mueller specializes in engineering solutions for complex and stringent environmental control and energy conservation. The firm is a leader and innovator in sustainability and resilience.

Current and recent projects include the renovation of the historic Hirshhorn Museum and Sculpture Garden; the new Capital One Hall in Tysons, Virginia; George Mason University's new Fuse at Mason Square in Arlington, Va.; the Fernandez Family Center for Innovation and Collaborative Learning at Loyola University in Baltimore; the renovation of Carrington Hall at the University of North Carolina's Nursing School in Chapel Hill, N.C, and numerous projects for Northrop Grumman Corporation throughout the Baltimore-Washington University.
